

COMMUNITY REPORT

2019 Community Report

At Time Out Hotel we believe that we have a responsibility to our community, our social partners and our environment.

Hurricane Dorian, severely impacted Grand Bahama, Abaco and Cays in 2019. A massive Emergency Relief and Long-Term Support fund was created and was Essential for Grand Bahama and Abaco. Sun Group Hotels supported the relief by providing a contribution of \$2,000.

Time Out Hotel also teamed up with the Barbados International Coastal Cleanup (BICC) which is a part of an international programme adopted from the international non-profit organisation Ocean Conservancy.

BICC, which is currently in its 25th year, seeks to mobilise the participation of Barbados' residents, to assist with the collection of marine debris found and redirect as much debris from the coastal areas before it gets to our oceans. We provided clean up supplies, such as gloves, bags and bottled water.

Finally, we feel it is important to sensitize our team to the aspects of Child protection. This course enabled our team to develop awareness of key issues in safeguarding children and what to do if they suspect a child or young person is being harmed, or if they notice human trafficking at any of our properties.

Alicia Farmer
General Manager

**"We have two hands, one to help ourselves,
the second to help others"**
